

# Quick Start Guide

## Publish Immersive and Interactive Content with Artist Connection

### What You Need

- Finalized MPEG-H Audio production with encoded MPEG-H Audio bitstream in mp4 container
- Cover thumbnail

### Step 1: Setup your Artist Connection Studio

- Register at <https://www.artistconnection.net>
- Select a studio subscription plan
- The audience of your album does not need a subscription plan

### Step 2: Upload media into the Media Library

- Click on 'Media Library' in the left Content section
- Create a new folder if required and drag and drop mp4 files and thumbnails

### Step 3: Create Album

- In the left Content menu click 'Albums'
- Click 'Add new' and enter the album details and a cover thumbnail
- At the bottom click 'Add tracks' to compile your individual tracks to an album
- Save your album

### Step 4: Share and send your album

- Select the album you want to share and click the sharing icon at the top right
- Enter the email addresses you want to share your album with to send invitations to them
